MERN STACK DEVELOPER

Results-driven Full Stack Developer (MERN) with 1 year of professional experience and 6 months of internship in developing responsive Full Stack Developer (MERN). Proficient in React.js, Node.js, Express.js, and MongoDB, with strong skills in JavaScript, HTML, CSS, Tailwind CSS, and PostgreSQL. Experienced in building scalable RESTful APIs and translating UI/UX designs into dynamic, high-performing applications. Seeking to contribute technical expertise and problem-solving skills.

EDUCATION

- B.Tech in Computer Science & Engineering | Sanjay Ghodawat University, Kolhapur | 2024
- Diploma in Computer Science & Engineering | Sanjay Ghodawat Polytechnic, Kolhapur | 2021

TECHNICAL SKILLS

- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, Bootstrap, HTML, CSS, JavaScript
- **Backend:** Node.js, Express.js, RESTful API Development
- **Database:** MongoDB, PSql
- **Tools & Platforms:** Git, Postman, RTK Query
- **Programming Languages:** JavaScript

PROFESSIONAL EXPERIENCE

Jr.MERN Developer | Compumatrix Technologies Pvt. Ltd. | Nov 2024 – Present

Worked as a Full Stack Developer (MERN), collaborating closely with designers and backend teams to build and optimize scalable, user-friendly web applications. Focused on enhancing performance, maintaining code quality, and delivering consistent user experiences across devices. Implemented efficient API integrations, modern UI designs, and robust backend systems to ensure smooth functionality and scalability. Involved in debugging, optimization, and continuous improvement of existing modules to enhance reliability and maintainability.

Key Contributions:

Designed and developed RESTful APIs with a consistent response format.
Implemented backend validation, error handling, and data consistency for scalable microservices.
Built dynamic nested form systems for material and variant management using React, Formik, and Yup.
Enhanced frontend performance with component optimization, lazy loading, and Redux Toolkit.
Collaborated with teams to ensure timely delivery and maintain high-quality standards.

Key Projects:

Professional Staffing Platform: Developed and optimized multilingual, responsive frontend components with reusable UI structures and integrated APIs using RTK Query for real-time updates.
Business Dashboard: Built dynamic data visualization and admin timeline modules for analytics and efficient data management.
Furniture Website: Designed and developed a modern e-commerce interface with product customization, material selection, and dynamic variant handling using React, Tailwind CSS, and Material Tailwind.

INTERN MERN Developer | SCALEFULL TECHNOLOGIES LLP | JAN 2024

Collaborated with designers and backend developers to build responsive, user-friendly web applications, optimizing performance and ensuring cross-browser compatibility. Involved in debugging and enhancing existing code to maintain functionality and visual consistency.

Key Project:

Todo WebApp (MERN): A task management tool with user authentication, task collaboration, and customizable categories. Built using MERN stack with Bootstrap, featuring secure authentication, efficient task tracking, and robust error handling for a seamless user experience.
